AOA OST & ODST UPDATE

Chile Summer Training

The Ontario Development Ski Team and Ontario Ski Team take to the slopes of **El Colorado, Chile**, for early-season preparation. El Colorado continues to be a summer training hotspot where Ontario teams and clubs get to ski alongside some of the top stars in our sport - **Marco Odermatt** and **Michaela Shiffrin**, just to name a few.

While the World Cup athletes prepare for an Olympic year, our Ontario athletes continue to **develop fundamental skills, optimize movement patterns**, and **develop their speed and tactical acuity** as they ramp up for the first races in November.

The poster features a large, stylized white snowflake in the center. The background is a collage of ski racing images, including a skier in mid-turn and a crowd of spectators. A small red shield with a white maple leaf is in the top right corner.
